## NOTES

### LOWER YOUR SEWER RATE?

#### WINTER SEWER AVERAGES CONTINUE

Please continue conserving water to lower your sewer rate. The cost for water sent down the drain inside your home is calculated annually, usually based on the average amount of water your household uses during January, February, and March. These 3 winter months were chosen so customers would not be charged for treated water used outdoors. If we are forced by the elements (*snow*) to estimate water use during this time, we will do 4-month average which would include your December utility bill. All water used during this time, will be included in your sewer rate average. New sewer rates take effect on your May utility bill and that sewer rate will remain the same until the following April.

Contact Us: Town Hall 970-568-3381 3735 Cleveland Ave. Wellington, CO 80549
